EDUCATION

Kumaraguru college of
technology

Bachelor of Engineering –
Computer Science
Engineering
2024 – Present
Coimbatore, Tamil Nadu

SUMMARY

A passionate and dedicated Computer Science undergraduate currently in the second year of study. Strong foundational knowledge in C, C++, Python, HTML, and CSS, with hands-on experience in basic website development. Adept at problem-solving and learning new technologies quickly. Recently contributed to web projects focused on learning tools for children with special needs, showcasing both technical skills and social impact. Eager to grow in the fields of software development and user-centered design.

EXPERIENCE

Website Creation Projects

Team Member | 2024

- Worked in a collaborative team environment to design and develop website UIs.
- Contributed to front-end development using HTML and CSS.
- Focused on user-friendly interface design.
- Learned teamwork, communication, and the basics of deployment.

App UI Designing

Independent & Team Projects | Ongoing

- Designed user interfaces for mobile applications.
- Implemented basic backend logic for simple data storage and retrieval (e.g., using local storage or mock databases).
- Applied UI/UX principles to improve usability, accessibility, and visual appeal.
